

THE TIMES.

FAYETTE:

SATURDAY, JUNE 5, 1841.

This paper has been selected by the Secretary of State, at Washington, for the publication of the Laws, Orders, Joint Resolutions, Treaties, and other official matters connected with the various Departments.

EXTRA SESSION.

The Extra Session of Congress, agreeable to the proclamation of the President, was to have met on Monday last. By our exchanges from different parts of the Union, we learn that most of the members of Congress have left their homes for the Capitol, and by this time have doubtless reached Washington, and entered upon the discharge of their duties. We shall await with anxiety, their proceedings, and lay the latest and most important before our readers at as early a day as possible. There will be no time for idle discussion, and we earnestly hope and expect to see that the members of Congress will talk less and work more. The present state of affairs of the country require that immediate and effectual measures should be adopted for the relief of the people; the people expect it—they have been promised it—it is due them—and they look for Congress to set itself about the work, and with a determination to carry it on, and that as speedily as the nature of circumstances will admit of.

But we do not expect, nor can any one, that the present derangement of our affairs, which has been the work of twelve years, can be repaired, and things set in motion in a different and more healthful manner, in a moment. Every thing has to be overhauled and set to rights; and to bring order out of the chaos in which matters were left by the late administration, has been, and will be, a matter of no small importance. The reports of the heads of Departments, which will be laid before Congress at an early day in the session, will a "tale unfold," which will astonish the people to see the manner in which their business has been conducted by the men they deputed to attend to their affairs. Already have things been brought to light which give evidence of the most corrupt and shameful conduct on the part of the late administration. But we await the appearance of the reports, which will speak for themselves.

In the meantime we would suggest to every friend of the administration the propriety of having some newspaper, from which they can learn what is being done by Congress. Notwithstanding we consider it the duty of every person, at all times, to take some paper, we deem it of more than ordinary importance that the friends of the administration should have one at this time; for it will be the business of the federal press—and they have already commenced—to misrepresent and falsely accuse the administration of every thing that their imagination can conjure up. It is necessary, then that its friends should be prepared to refute their false assertions, and give it at least a fair bearing—to do which, it is indispensably necessary that they should have some paper, containing an impartial and fair account of its proceedings.

WAR!—THE MORMONS.

Our neighborhood friends are again being interested with rumors of War, and the poor Mormons are anon represented as drilling four thousand men—the 1st of July being fixed as the day for their descent on Missouri! Gov. CARLIN, of Illinois, is represented as having joined their church, and every now and then we are met by a surmise that he is to head the anti-Missouri army.

We do not perceive so much danger from this movement as some apprehend, for although Gov. CARLIN is commander in chief of the Army and Navy of Illinois, our friends forget that Gov. REYNOLDS is commander in chief of the Army and Navy of Missouri! Our Governor, we apprehend, will not permit so fortunate a circumstance to pass without improvement, and as military renown is considered the road to preferment and fame, we opine he is even now making note of his regimentals, and preparing to draw on the armor of his wrath. We therefore caution Gov. CARLIN and his Mormon brethren to beware of Gov. REYNOLDS. He is a remarkably athletic man—of middle age—sound health—determined spirit—frequently smokes at the nostrils when angry, and has been seen to sparkle as if charged with electric fluid. In consequence of these dangerous propensities and properties of our Governor, we will not agree to be answerable for the consequences, as if Gov. CARLIN comes it is said that no one will agree to hold Gov. REYNOLDS!

SHAW'S PATENT BED-STEAD.

We congratulate the country generally, its house-wives especially, and our ingenious friend and townsman particularly upon an invention of which he is the author and (probably before this time) the Patentee. We had seen his bedstead before he despatched it to Washington, and are gratified to discover, from a letter just handed us by Mr. S., that our own judgment of the ability of his invention is concurred in, and confirmed by the judgment of those whose every day business it is to examine and pass upon the inventions of the age.

From what we understand concerning it, the whole improvement consists in the adoption of a dovetail (instead of screws or tenons) so constructed and so acting as to become the tighter and closer by reason of the weight upon the cord or sacking, and capable of being taken down, in case of fire, &c., in less than one minute!

Another of its qualities (and one which will be as grateful to housekeepers and chambermaids as it will be ruinous to patent drug sellers) is, that "a bed-bug or chinch can't come in sight of it."

But we forbear more at present than to conclude our congratulations by publishing the following note from our fellow citizen, Col. BROWN, who kindly took charge of the business for Mr. Shaw, when about to visit Washington about a month since:

WASHINGTON, May 22, 1841.
Dear Sir—I sent your bedstead to the Patent Office yesterday, and called this morning to file your application and the drawing. I am gratified to be enabled to inform you, not only that it will be patented as soon as it can be reached (say the last of next week) but that it is regarded by such officers of the establishment as have seen it (including the intelligent scientific mechanician) as the very best and most useful invention which has been called upon to examine for a year past. Mr. Elliott, the draftsman, has an opinion no less favorable respecting its convenience and utility—as an evidence of which he proposes to undertake to have it patented in England and France simultaneously with the date of the letters here. Having, however, no discretion about delaying the patent here, I will rather hasten than retard it, and be governed by your directions concerning the applications abroad.

Congratulating you, sincerely, upon the certainty of being well reimbursed for the successful decision of your ingenuity in the development of an invention as simple as it is destined to be convenient, economical and useful.
I remain, Dear Sir,
Your friend and servant,
JAMES H. BIRCH.

Mr. HENRY SHAW,
Fayette, Missouri.

THE MORMONS.

An officer of one of the steamboats that lately arrived at our wharf from above, says the St. Louis Republican, informs us that the Governor of Illinois has, bona fide, become a Mormon. There had been several hundred Mormons, from New York and England, who had lately made a "descent" upon Nauvoo, and the circumjacent regions, by way of making settlement there. This colony was beheld with alarm by many of the dispassionate inhabitants in that part of the State. Both the American, and English emigrants of that persuasion, had come there at least as well armed and accoutred for the fight, as for agriculture; not one male among them that knew how to use fire arms, but had his rifle, his pistol, and many others of their trickier-sneer. With the colony from New York, there had been several young women decoyed off from parents and friends, with them, by means of promises the most extravagant, and descriptions of country more romantic than ever entered into Arabian tale. The fruits of the earth even in a state of nature, were as the Garden of Eden before it had been cursed with thorns and thistles; the strawberries growing there in a state of nature being equal to pomegranates! One of those deluded young women, at the sight of this paradise, gave expression to her disappointment that bordered upon despair—so different was the real scenery from the representation, and so complete, so hopeless as to deliverance, was her captivity. The fact of the Governor's joining this society, was looked upon as no unmeaning "sign of the times" to come. Such is the rumor we have. They are also building an extensive something which they call a temple, but which has very much the appearance of a fort.

The family of Gen. Harrison have given their consent to a committee of citizens of Cincinnati, to take order for the removal of his remains to North Bend for interment.—The committee of removal will leave for Washington on the 10th of June.

The Bank of the United States has made assignments of its agencies at Pittsburgh and Cincinnati. The agent for the Trustees refuses to take the notes of the Bank in payment of the debts due at the agency.

Michigan has now 35 newspapers—eighteen years ago the number was one.

The Norfolk Beacon states that Commodore BEVERLY KENNER has been ordered to the command of the Navy Yard, Washington, to fill the vacancy occasioned by the death of Com. THOS. H. STEVENS.

Mr. Van Buren, on reaching his home at Kinderhook, was received by his party friends with a public address, and was escorted by a long procession to his residence. To the address Mr. Van Buren made a set reply.

A letter from Washington, in the N. York Commercial, says that John M. Clayton, of Delaware, will be minister to England, to succeed Mr. Stevenson.

THE SIOUX AND CHIPPEWAYS.—The Galena Gazette of the 21st says: The clerk of the Indian Queen, arrived day before yesterday from the St. Croix, reports the following occurrence as happening last Sunday:

A company of about 30 Sioux had crossed into the Chippewa country. Two Chippewas learning this fact, immediately put new flints in their rifles, and started in pursuit. They came upon the party, and each brought down his man; one of the Chippewas was shot and the other escaped. The Sioux then broke up their camp and fled in a great hurry, not waiting to bury their dead. The Chippewa killed is said to have been the son of Little Crow, a celebrated chief.

AN AFFRAY occurred on Wednesday evening last, says the St. Louis Bulletin of the 29th, a little below this city, between Major E. T. Langham and Mr. James Adams, in which the latter received a pistol wound on the head, from which there is scarcely a hope of his recovery. Major Langham immediately surrendered himself to Mr. Kretchmer, the nearest magistrate, by whom he was committed until yesterday morning. After a careful examination, Major Langham was held to bail in the sum of \$5,000.

In our paper of to-day will be found an article from the New York Express, giving a correct and full account of Mr. Webster's position during the late war, taken from the Journals of Congress. There is not a Federal paper in the state but what has been abusing Mr. Webster, since his appointment to the distinguished and responsible station which he now occupies, on account of his votes during the war. They are all, or at least the more important ones, contained in the article alluded to, and the reasons for his voting as he did, with the peculiar circumstances under which the subjects voted on were brought before Congress. We hope our readers will give it a careful perusal, and inform themselves of the facts of the case.

John Greig (W.) has been elected to Congress in the Ontario district, N. Y., to succeed Mr. Granger.

U. S. BANK.—The Philadelphia Inquirer of the 12th says:

We learn that the Directors are busily engaged in making a Trusteeship intended to secure the circulation, the deposits and foreign balances, amounting in all to about \$5,000,000. To this end, they have appropriated securities of one kind and another, which are estimated to be worth \$12,500,000. The arrangement will be completed and carried into effect as speedily as possible.—The notes and deposits, it would therefore seem, are perfectly safe, although some delay may take place before their final liquidation.

MR. WRIGHT INSTRUCTED.—Resolution, have passed the Senate by a vote of 15 to 10, instructing the U. S. Senators from New York to vote for the distribution of the Public Lands, for the repeal of the Sub-Treasury Bill, and for the establishment of a National Bank.

All of the negroes concerned in the late St. Louis tragedy—four—have had their trials, and been found guilty of murder in the first degree. The Court has not yet passed sentence upon them.

IMPORTANT DECISION IN THE CASE OF McLEOD.—The Supreme Court on Thursday made the following order in the case of McLeod.—N. Y. Herald.

In Supreme Court, May 20, 1841.
The People vs. Alexander McLeod.—The defendant, who stands charged by indictment, with the crime of murder, having been brought into Court by the sheriff of the county of Niagara, by virtue of a writ of habeas corpus, and a motion having been made for his discharge, and it being improbable that the court will be able to render its judgment in the premises at the present term, it is therefore, ordered, that the defendant be committed to the custody of the sheriff of the city and county of N. York, until the further order of the Court. When the transfer has been made, the sheriff of Niagara will no longer be chargeable with the custody of the defendant.

An exchange paper wishes to "keep it before the people," that at this season of the year, persons of all descriptions, and especially those who follow the art of printing, are more than ever in want of money.

"Breath the Soul of Wit."—The celebrated Dr. Abernethy was a man of uncommon brevity of expression. A lady, who was acquainted with this peculiarity of the Doctor, once called upon him, with one of her arms badly burnt, for advice, when the following dialogue took place:
Mrs. B.—(Exposing her arm) "A burn."
Doctor.—"I see it is; poultice it." (Here he wrote a prescription for a poultice and handed her.)

Second visit. Mrs. B.—(Exposing her arm as before.) "Better."
Doctor.—"Glad of it; continue the poultice."
Third visit. Mrs. B.—(Showing her arm).—"Well."
Doctor.—"Very glad."
Mrs. B.—"What's the feel?"
Doctor.—"Nothing; you are the most sensible woman I have ever seen."

If a man has money he has every thing—every body is his friend, and nobody enquires once how he came by it; hence the inducement to follow the old man's advice to acquire money at all hazards.

STATE OF MISSOURI,

County of Livingston.

To ABRAHAM W. Hunt, and all others whom it may concern,

THIS is to certify, that Novamilla Johnson, late of Livingston County, and State at large, to foreclose a mortgage, which is said petition is alleged to have been executed by you, on the eighteenth day of August, in the year of our Lord 1840. The mortgaged property described, is Lot No. 2, in Block No. 75, lying in the town of Chillicothe, county of Livingston, and State aforesaid. The amount claimed to be due in said petition, on said mortgage, is one hundred and forty dollars, one hundred of which, is alleged to have been paid by said Johnson, as your security, to one John C. Orum. The prayer in said petition, is, that judgment may be rendered in favor of said Johnson, for his debt, and the equity of redemption foreclosed, and the mortgage property sold to satisfy the amount due; and you are therefore required to appear at the next August term of the Livingston Circuit Court, on
